Dear participants of RT Molecular Cytogenetics 2018,

the assessment of the trial has been completed. We would like to thank
you for participating in this trial.

For the type of problem to be solved as well as the criteria of this trial
we refer you to the documents that were available on [www.bvdh-
ringversuche.de](http://www.bvdh-ringversuche.de) at the start of the trial.

Again, we would like to express heartfelt thanks to our very committed
team of assessors: Asta Cramer (Essen), Katrin Fröblius (Marburg),
Alma Kuchler (Essen), Viola Langhof (Dresden), Andreas Rätsch
(Stuttgart), Sonja Schweinsberg (Chemnitz), Sylke Singer (Tübingen),
Konstantina Tzellou (Stuttgart) and Marianne Volleth (Magdeburg).

Statistical information, details on the assessment as well as on the ex-
pected findings on both cases are available online: please log in and go
to „Ring Trials – completed“. Please click on the button „final report 2“
in the line indicating the RT Molecular Cytogenetics 2018.

For the individual assessment of your laboratory please log in and go to
„Ring Trials – completed“. Please click on the button „assessment“ in
the line indicating the RT Molecular Cytogenetics 2018.
